

CLAIMS

We claim:

1. A multipurpose fishing net, comprising:
 - a rigid frame;
 - a flotation device affixed to said frame; and
 - a single ply of flexible net material extending loosely across said frame and defining a shallow net pocket.
2. The multipurpose fishing net according to claim 1, wherein said frame is rectangular with a first pair of sides comprising opposed first and second sides and a second pair of sides comprising opposed third and fourth sides.
3. The multipurpose fishing net according to claim 2, wherein:
 - said frame is formed of first through fourth lengths of hollow tubular material; and
 - said lengths are joined to one another by four ninety degree elbows.
4. The multipurpose fishing net according to claim 2, wherein:
 - said flotation device comprises first through fourth sections of cylindrical closed cell foam material respectively secured over said first through fourth sides of said frame.
